## Mathematics

 SCHOOLOur Maths curriculum is designed to provide a coherent and progressive development of knowledge, skills and understanding.
We want our pupils to:
Love learning about range of strategies: working both cooperatively, collaboratively and independently to use and apply skills in a range of contexts.

Achieve their full potential by having a secure understanding of mathematics through a process of enquiry, reasoning and problem solving to secure fluency and deeper thinking. Also having the confidence in mathematics where children can express ideas fluently and talk about the subject using mathematical language across the curriculum.

Develop curiosity by asking questions to deepen their Mathematical knowledge and have a positive attitude to Mathematics as an interesting and valuable subject.

Have fun by trying out new strategies and learning from mistakes.
Be inspired by others and learn from them.
Have memorable experiences by using a variety of equipment and resources and carrying out a variety of fun, challenging activities.
Learn life skills by understanding of the importance of mathematics and experiences in everyday life.
Develop as individuals by providing challenge, support and inspiration.

## Early Years Foundation Stage

In Early Years we provide an environment rich in opportunities to explore and learn about number.
Developing a strong grounding in number is essential so that all children develop the necessary building blocks to excel mathematically. Children should be able to count confidently, develop a deep understanding of the numbers to 10 , the relationships between them and the patterns within those numbers. By providing frequent and varied opportunities to build and apply this understanding - such as using manipulatives, including small pebbles and tens frames for organising counting - children will develop a secure base of knowledge and vocabulary from which mastery of mathematics is built.

Our Early Years curriculum includes rich opportunities for children to develop their spatial reasoning skills across all areas of mathematics including shape, space and measures. It is important that children develop positive attitudes and interests in mathematics, look for patterns and relationships, spot connections, 'have a go', talk to adults and peers about what they notice and not be afraid to make mistakes.

Mathematical experiences are embedded throughout the provision and areas of learning in Early Years.
In Reception, mathematics is taught more discretely through themes to develop mathematical skills and knowledge.

## Key Stage 1

The principal focus of mathematics teaching in key stage 1 is to ensure that pupils develop confidence and mental fluency with whole numbers, counting and place value. This should involve working with numerals, words and the four operations, including with practical resources [for example, concrete objects and measuring tools].

At this stage, pupils develop their ability to recognise, describe, draw, compare and sort different shapes and use the related vocabulary. Teaching involves using a range of measures to describe and compare different quantities such as length, mass, capacity/volume, time and money.

By the end of year 2, pupils should know the number bonds to 20 and be precise in using and understanding place value. An emphasis on practice at this early stage will aid fluency

The curriculum encourages pupils to read and spell mathematical vocabulary, at a level consistent with their increasing word reading and spelling knowledge at key stage 1 .

## Key Stage 2

The principal focus of mathematics teaching in lower key stage 2 is to ensure that pupils become increasingly fluent with whole numbers and the four operations, including number facts and the concept of place value. This ensures that pupils develop efficient written and mental methods and perform calculations accurately with increasingly large whole numbers.

At this stage, pupils develop their ability to solve a range of problems, including with simple fractions and decimal place value. Teaching also ensures that pupils draw with increasing accuracy and develop mathematical reasoning so they can analyse shapes and their properties, and confidently describe the relationships between them. It ensures that they can use measuring instruments with accuracy and make connections between measure and number.

By the end of year 4, pupils should have memorised their multiplication tables up to and including the 12 multiplication table and show precision and fluency in their work. Pupils should read and spell mathematical vocabulary correctly and confidently, using their growing word reading knowledge and their knowledge of spelling.

The principal focus of mathematics teaching in upper key stage 2 is to ensure that pupils extend their understanding of the number system and place value to include larger integers. This develops the connections that pupils make between multiplication and division with fractions, decimals, percentages and ratio.

At this stage, pupils develop their ability to solve a wider range of problems, including increasingly complex properties of numbers and arithmetic, and problems demanding efficient written and mental methods of calculation. With this foundation in arithmetic, pupils are introduced to the language of algebra as a means for solving a variety of problems. Teaching in geometry and measures should consolidate and extend knowledge developed in number. Teaching also ensures that pupils classify shapes with increasingly complex geometric properties and that they learn the vocabulary they need to describe them.

By the end of year 6, pupils should be fluent in written methods for all four operations, including long multiplication and division, and in working with fractions, decimals and percentages. They should read, spell and pronounce mathematical vocabulary correctly.

## Reception - Yearly Overview

|  | Week 1 | Week 2 | Week 3 | Week 4 | Week 5 | Week 6 | Week 7 | Week 8 | Week 9 | Week 10 | Week 11 | Week 12 |

| Nursery Skills | - To talk about what happened today, yesterday and tomorrow. (Au1) <br> - To count out a group of up to 5 objects. (Au1) <br> - To show an understanding of $1: 1$ counting to 5. (Au1) <br> - Knowing that the last number you count represents the total number of objects (Au1) <br> - Talk about and explore 2D shapes using relevant mathematical vocabulary such as flat/sides/round/ straight/ corners (Au1) | - To count out a group of up to 5 objects. (Au2) <br> - To match number of objects to numeral. (Au2) <br> - To show an understanding of $1: 1$ counting to 5. (Au2) <br> - Knowing that the last number you count represents the total number of objects (Au2) <br> - Talk about and explore 2D shapes using relevant mathematical vocabulary such as flat/sides/round/ straight/ corners (Au2) | - To count out a group of up to 10 objects. (Sp1) <br> - One more/less using a number line. (Sp1) <br> - To develop fast recognition of numbers. (Sp1) <br> - To count up to 10 . (Sp1) <br> - To show an awareness of how numerals are formed and to experiment with own mathematical mark making. (Sp1) <br> - To talk about and explore patterns in the environment (Sp1) | - To identify, describe and compare groups of objects. (Sp2) <br> - To compare and order objects according to their weight and distance. (Sp2) <br> - To develop fast recognition of numbers. (Sp2) <br> - To count up to 10. (Sp2) <br> - To show an awareness of positional language such as under/behind/ next to/over/ on top of. (Sp2) <br> - To independently create and talk about own patterns using a range of objects and resources. (Sp2) | - Practical problem solving with numbers up to 5 . (Su1) <br> - To select and use shapes appropriately in play, combining them to make models and enclosures. (Su1) <br> - To develop fast recognition of numbers. (Su1) <br> - To use relevant mathematical vocabulary when talking about learning. (Su1) <br> - To begin to make sensible comparisons between objects relating to size, length, weight and capacity. (Su1) <br> - To begin to describe a sequence of events accurately. (Su1) <br> - To recall simple facts about a familiar journey. (Su1) | - To count, order and recognise numbers to 10, in and out of sequence. (Su2) <br> - To name and describe 2D shapes. (Su2) <br> - To name some common 3D shapes and properties. (Su2) <br> - To compare and order objects according to their size and distance. (Su2) <br> - To develop fast recognition of numbers. (Su2) <br> - To use relevant mathematical vocabulary when talking about learning. (Su2) <br> - To begin to describe a sequence of events accurately. (Su2) <br> - To recall simple facts about a familiar journey. (Su2) |  |
| Nursery Knowledge | - Singing a range of number songs. (Au1) <br> - To say number names to 5 in order. (Au1) <br> - To know that time can be measured using days. (Au1) <br> - To know that the last number said represents the total number of objects (Au1) <br> - To show an awareness and name some 2D shapes in the environment. (Au1) | - To say number names to 10 in order. (Au2) <br> - To know that a group of objects can also be represented by a number. (Au2) <br> - Singing a range of number songs. (Au2) <br> - To know that the last number said represents the total number of objects (Au2) <br> - To show an awareness and name some 2D shapes in the environment. (Au2) | - To create and repeat simple patterns. (Sp1) <br> - To subitise to 3. (Sp1) <br> - To know number order beyond 5 when counting. (Sp1) <br> - To say number names to 10 in order. (Sp1) <br> - To be able to say number names forwards and backwards to 10. (Sp1) <br> - To know that each object should only be counted once. (Sp1) <br> - Singing a range of number songs. (Sp1) | - To subitise to 3. (Sp2) <br> - To know number order beyond 5 when counting. (Sp2) <br> - To use the language of more and less to compare amounts. (Sp2) <br> - To know that numbers can be ordered. (Sp2) <br> - To be able to demonstrate through games and role play an understanding of positional language. (Sp2) <br> - Singing a range of number songs. (Sp2) | - To subitise to 6 . (Su1) <br> - To remember the order in which things happen. (Su1) <br> - To know that subtraction means taking an amount away from a group. (Su1) <br> - To know that some shapes more appropriate than others when building. (Su1) <br> - To remember different aspects of a journey, e.g. I walked over a bridge to get to school. (Su1) | - To subitise to 6 (Su2) <br> - To learn vocabulary linked to describing size and distance. (Su2) <br> - To be able to say number names forwards and backwards to 15. (Su2) <br> - To remember the order in which things happen. (Su2) <br> - To remember different aspects of a journey e.g. I walked over a bridge to get to school. (Su2) |  |

## Place value: Problems/Rounding

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | - use place value and number facts to solve problems | - solve number problems and practical problems involving these ideas | - round any number to the nearest 10, 100 or 1000 <br> - solve number and practical problems that involve all of the above and with increasingly large positive numbers | - interpret negative numbers in context <br> - round any number up to 1 000 ooo to the nearest 10, 100, 1000, 10000 and 100000 <br> - solve number problems and practical problems that involve all of the above | - round any whole number to a required degree of accuracy use negative context, and calculate intervals across zero <br> - solve number and practical problems that involve all of the above |
|  | Autumn 1 | Autumn 1 | Autumn 1 | Autumn 1 | Autumn 1 |

## Addition \& subtraction: Calculations

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| - add and subtract one-digit and twodigit numbers to 20 , including zero | - add and subtract numbers using concrete objects. pictorial representations. and mentally. including: <br> > a two-digit <br> number and ones <br> - a two-digit <br> number and tens <br> > two two-digit numbers <br> - adding three onedigit numbers | - add and subtract numbers mentally. including: <br> $>$ a three-digit <br> number and ones <br> > athree-digit <br> number and tens <br> > a three-digit <br> number and hundreds <br> add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction | - add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate | - add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction) add and subtract numbers mentally with increasingly large numbers | - perform mental calculations, including with mixed operations and large numbers <br> - use their knowledge of the order of operations to carry out calculations involving the four operations |
| Autumn 2 Spring 2 | Autumn 2 | Autumn 2 | Autumn 2 | Autumn 2 | Autumn 2 |

## Addition \& subtraction: Problems

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| - solve one-step problems that involve addition and subtraction. using concrete objects and pictorial representations, and missing number problems such as $7=\square-9$ | - solve problems with addition and subtraction: <br> $>$ using concrete objects and pictorial representations, including those involving numbers. quantities and measures <br> خ applying their increasing knowledge of mental and written methods | - solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction | solve addition and subtraction twostep problems in contexts, deciding which operations and methods to use and why | solve addition and subtraction multistep problems in contexts, deciding which operations and methods to use and why solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign | - solve addition and subtraction multistep problems in contexts, deciding which operations and methods to use and why |
| Autumn 2 Spring 2 | Autumn 2 | Autumn 2 | Autumn 2 | Autumn 2 | Autumn 2 |

## Multiplication 8 division: Recall/use

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | - recall and use muitiplication and the 2 . 5 and 10 multiplication tables, including recognising odd and even <br> - show that <br> muttiplication of two numbers can be done in any corder <br> (commutative) and division of another cannot | - recall and use multiplication and dhesion races for the 3, A and a tables | recall division facts for multiplication tables up to 12 * 12 <br> known and <br> derived racts to divitipiy and including: multiplying bu and 1, dividing by 1: mutiplying numbers recognise and use tactor pairs and mental calculations | - identiry multiples and ractors. including finding a number, and of two numbers <br> - know and use the prime numbers. <br> prime factors and composite (non- <br> - bstablish whether a number up to recall prime numbers up to 19 squareneamberse and cube numbers, and the squared (》) and cubed (》) cubed (3) | - ldentiry common factors, common prime numbe Prime numbers check answers to calculations and context or a Problemian oppropror accuracy |
|  | Spring 2 | Autumn 3 Spring 1 | Autumn 4 Spring 1 | Autumn 3 | Autumn 2 |

## Multiplication \& division: Calculations

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | - calculate mathematical staterments for multiplication and division within the multiplication tables and write them using the muitiplication ( $\times$ ). division $(\leftrightarrow)$ and equals ( $=$ ) signs | write and calculate mathernatical statements for muitiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written methods | - multiply two-digit and three-digit numbers by a one-digit number using formal written layout |  |  |
|  | Spring 2 | Autumn 3 Spring 1 | Spring 1 | Autumn 3 Spring 1 | Autumn 2 |

Multiplication \& division: Problems

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| - solve one-step <br> problems <br> involving <br> multiplication and <br> division, by <br> calculating the <br> answer using <br> concrete objects. <br> pictorial <br> representations <br> and arrays with <br> the support of the <br> teacher | - solve problems involving muitiplication and division, using materials, arrays. repeated addition, mental methods, and division facts. including problems in contexts | solve problems. including missing number problems. involving multiplication and division, including positive integer scaling problems and <br> correspondence problems in which nobjects are connected to $m$ objects | - solve problems involving multiplying and adding, including using the distributive law to muitiply two digit numbers by one digit, integer scaling problems and harder correspondence problems such as n objects are connected to $m$ objects | solve problems involving <br> multiplication and division including using their <br> knowledge of factors and multiples, squares and cubes <br> solve problems involving <br> multiplication and division, including scaling by simple fractions and problems invotving simple rates | - solve problems involving addition, subtraction. multiplication and division |
| Summer 1 | Spring 2 | Spring 1 | Spring 1 | Autumn 3 Spring 1 | Auturnn 2 |

## Multiplication \& division: Combined

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  |  |
|  |  |  |  | Spring 1 | Autumn 2 |

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| - recagnise. find and name a halr as one of two equal pares of an object, shape or quantity <br> recognise, find and narme a quarter as one of of an object. shape or quantity | - recognise. find. name and write fractions $\frac{1}{3}, \frac{1}{4}, \frac{3}{4}$ and $\frac{3}{4}$ or a length. shape, set of objects or quantity | - count upand recognise that tenths arise from dividing an object into to equal Plividing one numbers or quantities by 10 recogntse. find tractions discrete see of objects: unit rractions and nonunit fractions wich denal <br> - Cenorminators recognise and use fumbers as rrambers: unit unit tractions with denal denominators | - count up and hundredths: recognise that hundredths arise objece by one hundred and dividing tenths by ten. | - ldentify, name equivalent fractions or a given rraction. visually including tenths and hundredths recognise mixed numbers and improper rractions and form to the othe and write mathernatical staternernes $>1$ as a mixed number [for examples $\frac{2}{6}+$ $\frac{4}{5}-\frac{0}{\overline{5}}-1 \frac{1}{5} 1$ |  |
| summer 2 | Summer 1 | Spring 3 | Spring 4 Summer 1 | Autumn 4 |  |

## Fractions: Compare

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | - Recognise the equivalence of $\frac{2}{4}$ and $\frac{1}{2}$ | - recognise and show, using diagrams, equivalent fractions with small denominators <br> - compare and order unit fractions, and fractions with the same denominators | - recognise and show, using diagrams, families of common equivalent fractions | - compare and order fractions whose denominators are all multiples of the same number | - use common <br> factors to simplify fractions; use common multiples to express fractions in the same <br> denomination <br> - compare and order fractions, including fractions $>1$ |
|  | Summer 1 | Spring 3 | Spring 3 | Autumn 4 | Autumn 3 |

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | $\begin{aligned} & \text { write simple } \\ & \text { rexctions tor } \\ & \text { example, } \frac{1}{2} \text { of } 6= \\ & 3 \end{aligned}$ $3$ | - add and subtract rractions with the same. denominator Within one whole [for example. $\frac{\hbar}{7}+$ $\frac{1}{7}=\frac{6}{7} 1$ | - add and subtract fractions with the some denominator |  |  |
|  | Summer 1 | Summer 1 | Spring 3 | Autumn 4 Spring 2 | Autumn 3 |

## Fractions: Solve problems

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :--- | :--- | :--- | :--- | :--- | :--- |
|  |  | Solve problems <br> that involve all of <br> the above | - solve problems <br> livolving <br> increasingly <br> harder fractions <br> tocalculate <br> quantities, and <br> quactionsto divide <br> quantities, <br> including non-unit <br> fractions where <br> the answer is a <br> whole number |  |  |

Decimals: Recogmise, write, compare

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | recognise and write decimal equivalents of any mumber of tenths or hundredths write decimal <br> equivalents to <br> round decimals with one decimal place to the nearest whole number withpare numbers with the same number of to two places up places | read and write decimal numbers as fractions [ror $\frac{2 x}{700} 1$ <br> - recognise and use thousandths and relate them to tenths. <br> hundredths and decimal <br> equivalents <br> - round decimals with two decimal places to the nearest whole number and to one decimal place read, write, order and compare numbers with up to three decimal places | - identiry the value of each digit in numbers given to three decimal places |
|  |  |  | Spring 4 Summer 1 | Spring 3 Summer 3 | Spring 3 |

Fractions, decimals and percentages

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | * solve simple measure and money problems and decimals to two decimal places | - recognise the per and understand that per cent relates to number hundredt, and write percentagess denominator 100. and as a decimal which require knowing decimatage and equivalents of <br>  with a denomator of a 25 multiple of 10 or |  |
|  |  |  | Spring 3 Spring 4 Summer1 | Spring 3 | Spring 3 Spring 4 |

Ratio and proportion

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  | - solve problems <br> relative stzes of two <br> quantities where <br> Missing values can <br> integer <br> multiplication and <br> division facts <br> solve problems <br> calculation/use or <br> Percentages <br> - solve problems <br> invalving sirmilar <br> shapes where the <br> scale factor is <br> known or can be <br> lound <br> かめiven prestolevram. <br>  <br> grouping using <br> knowledge of ractionsand <br> multiples |
|  |  |  |  |  | Spring 1 |

## Algebra

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| - solve one-step problems that involve addition using concrete objects and pictorial representations, and missing number problems such as $7=$ -9 $\qquad$ | - recognise and use the inverse relationship bend sen addition and use this to check calculations and solve missing number problems | - solve problems. including missing number problems |  |  | - use simple formulae <br> - generate and describe linear number sequences <br> - express missing number problems algebraically <br> - find pairs of numbers that satisfy an equation with two unknowns <br> - enumerate possibilities of combinations of two variables |
|  |  |  |  |  | Spring 2 |

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| - compare, describe and solve problems pras: <br> - lengths and heights <br> $\geqslant$ mass/weight <br> - capacity and volume <br> ? time <br> measure and begin to recora the rollowing: <br> - lengths <br> 2 massi/weight <br> - capacity and <br> - time hours. <br> minutes, seconds) | - choose and use apprapriate standard units to measure <br> lengthheight in any direction ( $\mathbf{k g} / \mathrm{g}$ ): <br> temperature ( ${ }^{\circ} \mathrm{C}$ ): capacity (litres/ml) to the nearest appropriate unit. scales. <br> thermometers and measuring <br> - Vessels <br> compare and mass. <br> volumelcapacity and record the results using $>$, $<$ and $=$ | - measure. add and compart: add an ( $\mathrm{m} / \mathrm{cm} / \mathrm{mm}$ ): mass ( $\mathrm{kg} / \mathrm{g}$ ): <br> ( $\mathrm{V} / \mathrm{ml}$ ) | Convert between dirferent units of measure for example, kilometre to metre: hour to minute] estmate. compare and catculate different measures | - convert between metric measure understand and equivalences between metric commond units such aserial inches, pounds and pints operations solve problems involving measure length, mass. volume, mones] notation. including scaling | solve problems involving the calculation and units or on or using decimal notation up to 3 d.p. where appropriate use, read, write and convert between standard units, converting lengh, mass. <br> volume and time from a smaller unit of measure to a larger unit, and decimal notation to up to $3 \mathrm{~d} . \mathrm{p}$. <br> - convert between milles and |
| Spring 4 Spring 5 Summer 6 | Spring 3 Spring 4 | Spring 2 Spring 4 | Spring 2 summer 3 | Spring 4 Surnmer 5 Summer 6 | Autumn 5 |

## Money

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| - recognise and know the value of different denominations of coins and notes | recognise and use symbols for <br> pounds (玉) and <br> pence (p): <br> combine amounts <br> to make a <br> particular value <br> - find different combinations of coins that equal the same amounts of money <br> - solve simple problems in a practical context involving addition and subtraction of money of the same unit. including giving change | - add and subtract amounts of money to give change, using both $E$ and $p$ in practical contexts | - estimate. <br> compare and calculate different measures. including money in pounds and pence | - use all four operations to solve problems invalving measure [for example. moneyl |  |
| Summer 5 | Spring 1 | Summer 2 | Summer 2 | Summer 3 |  |

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| - sequence events <br> inchronological <br> order using <br> example befor <br> example, before <br> first, today. <br> yesterday. <br> morning. <br> afternoon and <br> evening] <br> tarigutise and use <br> to dates. including <br> days of the week. <br> weeks, months <br> and years <br> - tell the time to the hour and half past the hour and draw the hands on a clock face to show these times | compare and sequence intervals of time <br> tell and write the timine to five minutes, inefuding quarter past/to the hour and draw the hands on a clock face to show these times <br> - know the number of minutes in an hour and the number of hours in a day |  | - read, write and corvert time between analogue and digital 12 clocks <br> - solve problems involving <br> converting from hours to minutes: minutes to <br> seconds; years to days | - solve problems involving converting between units of time | - use, read, write and convert between standard units, converting measurements of time from a smaller unit of measure to a larger unit, and vice versa <br> Note - In the WRMM schemes, time kanversions are covered in Ys; the Ye black concentracesion metric units. |
| Summer 6 | Summer 2 | Summer 3 | Summer 3 | Summer 5 | Auturnn 5 |

Perimeter, area, volume

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | - measure the perimeter of simple 2-D shapes | - measure and calculate the perimeter of a rectilinear ngure (including squares) in centimetres and metres <br> - find the area of rectilinear shapes by counting squares | - measure and <br> perimeter of <br> composite <br> rectilinear shapes <br> in centimetres and <br> metres <br> compare the area <br> of rectangles <br> (including squares) <br> and including <br> using standard <br> units, square <br> centmetres ( $\mathrm{cm}^{2}$ ) <br> and square metres <br> (the area of <br> irregular sh <br> - estimate volumes <br> [fror example, using <br> blocks to bulld <br> cuboids] and <br> expacity for <br> water] | - recognise that shapes with the same areas can have difrerent perimeters and Vice versa recognise when it is possible to use and volume of shapes <br> - calculate the area of parallelograms and triangles <br> - calculate, estimate golume of cure and cuboids using standard urits. inciuding cubic and cubic metres (m3), and extending to other units |
|  |  | Spring 2 | Autumn 3 Spring 2 | Spring 4 Summer 6 | Spring 5 |

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| - recognise and name common 2 D shapes ffor example. rectangles (including squares), circles and triangles] | - Identify and describe the properties of 2-D the number of sides and line symmetry in a vertical line shapes on the surface of 3-D example, a on a cylinder arie a triangle on a pyramidl <br> - compare and sort common 2-D shapes and everyday objects | - draw 2-D shapes | - compare and <br> classify geometric shapes, Including quadrilaterals and triangles, based on their properties and sizes <br> - Identify lines of symmetry in 2-D shapes presented in different orientations | - distinguish between regular and irregular polygons based on reasoning about equal sides and angles. use the properties of rectangles to deduce related facts and find missing lengths and angles | - draw 2-D shapes using given dimensions and angles <br> - compare and classify geometric shapes based on their properties and sizes <br> - illustrate and narme parts of circles, including radius, diameter and circurnference and know that the diameter is twice the radius |
| Autumn 3 | Autumn 3 | Summer 4 | Summer 4 | Summer 1 | Summer 1 |

## 3-D shapes

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| - recognise and name common 3D shapes [for example, cuboids (including cubes), pyramids and spheres] | - recognise and name common 3D shapes [for example, cuboids (including cubes). pyramids and spheres] <br> - compare and sort common 3-D shapes and everyday objects | - make 3-D shapes using modelling materials; recognise 3-D shapes in different orientations and describe them |  | - identify 3-D shapes, including cubes and other cuboids, from 2-D representations | - recognise, describe and build simple 3-D shapes, including making nets |
| Autumn 3 | Autumn 3 | Summer 4 |  | Summer 1 | Summer 1 |

## Angles and lines

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | - recognise angles as a property of shape or a description of a <br> - identify righe angles, recognise that two right angles make a hair-turn, three make three quarters of a turn complete a domplete turn. angles are great than or less than a right angle <br> - identify horizontal and vertical lines and pairs of perpendicular and parallel lines |  |  | - find unknown angles in any triangles. quadrilaterals. and regular <br> - recognise angles where they meet a straight line. or are vertically opposite, and find missing angles |
|  |  | Summer 4 | Surmmer 4 | Summer 2 | Surmmer 1 |

## Position and direction

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| - describe position. direction and movement. including whole. half, quarter and three-quarter turns | - order and arrang combinations of objects in patterns and sequences <br> - use mathematical vocabulary to describe position. direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and turns-quarter ands (clockwise clockwise) |  | describe positions on a 2-D grid as coordinates in the describe movements between positions as translations of leftright and up/down plot specified soines and draw a given polygon | - identify. describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed | - describe positions on the full coordinate grid (all four quadrants) <br> - draw and translate simple shapes on the coordinate plane. in the axes |
| Summer 3 | Summer 4 |  | Summer 6 | Summer 2 | Summer 2 |

## Present and interpret data

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | - interpret and construct simple pictograms, tally charts, block diagrams and simple tables | - interpret and present data using bar charts, pictograms and tables | - interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs | - complete, read and interpret information in tables, including timetables | - interpret and construct pie charts and line graphs and use these to solve problems |
|  | Summer 3 | Summer 5 | Summer 5 | Spring 5 | Spring 6 |

## Solve statistical problems

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | - ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity <br> - ask and answer questions about totalling and comparing categorical data | - solve one-step and two-step questions [for example, 'How many more?' and 'How many fewer?'l using information presented in scaled bar charts and pictograms and tables | - solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs | - solve comparison, sum and difference problems using information presented in a line graph | - calculate and interpret the mean as an average |
|  | Summer 3 | Summer 5 | Summer 5 | Spring 5 | Spring 6 |

Our maths curriculum for EYFS, Key Stage 1 and Key Stage 2 build strong understanding of fundamental concepts. In doing so, children are prepared for the next stage of their education, enjoy maths, have enquiring minds and lifelong skills.
